Pushing the green light button on the shuffler will constitute the beginning of a hand or if allowed to hand shuffle, it will be determined by the cutting of the cards. Guidelines for the paying of multiple qualifying hands are as follows:
 - Paying multiple qualifying Special Hands hands:
 - The first hand to begin will be eligible for their applicable prize payment; and

- Subsequent level qualifying hands will be ineligible for a prize payment as only one payment per hand type is paid each quarter.
 - Paying multiple qualifying Bad Beat hands:
 - At different tables, regardless of the payout level, all hands that qualify will be paid for that payout level;
 - At the same table, at different payout levels, all hands will be paid accordingly; or
